PARALYMPIC GAMES
STATEMENT OF BADMINTON REQUIREMENTS

The purpose of this Statement is to act as:

- an aid to bidding cities
- a reference against which the plans of cities hosting the Paralympic Games will be measured

The Statement is not exhaustive, in the sense that it does not necessarily include responsibilities and obligations placed on the Organising Committee for the Games by the International Paralympic Committee.

The BWF reserves the right to amend the Statement from time to time.

3. NUMBER OF COMPETITORS

The number of competitors for 2020 is 90. The IPC decides the number of competitors.

4. TECHNICAL OFFICIALS

Officials fall into the following categories and numbers:

- Technical Delegate 1

- Deputy Referees 2
- Umpires – 24
- Medical Officers 2
• Match Co-ordinator 1
• Umpire Co-ordinator 1
• Line Judge Co-ordinator 1 *
• Line Judges 80 *

* These officials are usually provided by the Member Association in the country in which the Games are held, but the BWF policy is that at least 25% of positions are made available to experienced Line Judges from outside that country, provided these Line Judges bear their own travel costs. Appointment of the Line Judge Co-ordinator and Line Judges does, nonetheless, require the BWF approval. The BWF must be involved in the training of Line Judges.

5. BWF OFFICIALS

Members of the BWF Secretariat play a variety of roles at all major events, including the Paralympic Games. The staff team for the Paralympic Games will be selected by the Secretary General in accordance with the available accreditation provision given by the IPC.

6. ACCREDITATION

It is essential that all BWF staff be given the necessary accreditation to enable them to access all parts of the Competition venue.

7. BWF COUNCIL

The BWF Council, comprising the President, Deputy President, Vice Presidents (6), and Members (19), which includes the BWF Council Member representing the Athletes Commission, normally attend the Games. The hotel housing the BWF delegation will require meeting facilities – although not necessarily on the scale required for a Congress.

8. COMPETITION VENUE

8.1 Wheelchair accessibility. All main parts of the tournament venue that is relevant to athletes/officials that are wheelchair users must be accessible to them. This includes but not limited to main entrance to venue, field of play, practice hall, warm up hall, players facilities, press and interview rooms, technical area, bathrooms, shower rooms, doping control rooms, BWF office, spectators viewing area.

8.2 Field of Play. The floor of the field of play must measure not less than 48 metres by 30 metres. The uninterrupted height above the floor must be not less than 12 metres. [Note: the field of play is bounded by the first row of seating for spectators or others not involved in management of the competition].

8.3 Flooring. The surface on which carpeting and court mats are placed must be a wooden, sprung floor. The wooden, sprung floor must be approved by BWF and live up the normal requirements for such wooden, sprung floors stated in the BWF Equipment Approval Scheme. Wheelchair badminton is to be played on the wooden, sprung floor surface.

8.4 Court Equipment. 2 Court mats, 4 sets of posts and nets for four competition courts

8.5 Court mats, 4 sets of posts and nets for warm-up courts must be procured only from sources authorised by the BWF.
8.5 **Shuttlecocks.** Shuttlecocks must be procured only from sources authorised by the BWF. A secure room must be provided for the storage of 650 dozen shuttlecocks, of at least three speeds (these will vary according to conditions in the Competition Hall).

8.6 **Lighting.** The positioning and lux requirements of lighting over the field of play may vary according to the nature and structure of the competition hall. Lighting must be situated at least one metre outside, and at least 12 metres above, the court boundaries. There should be no direct glare from lighting into the eyes of players on court. A lighting level of at least 1200 lux is required on the court, when measured holding the light meter in the vertical plane at right angles to intended TV camera shots. Court lighting must be capable of immediate response to the on/off switch. There must be no external sources of light through windows etc. Lighting over spectator areas must be capable of being dimmed during play.

8.8 **Background.** The walls or any material covering the walls, ‘A’ boards and other interior surrounds (including seating) to the field of play must be of a dark colour. Light colours – white or yellow, for example – must not be used. [Note: according to lighting placements and the height of the ceiling above the lighting, it may also be inappropriate for the ceiling to be of a light colour]. Backgrounds of any “look and feel” ‘A’ boards must meet with the BWF approval.

8.7 **Air movement.** The field of play must have minimal draughts or other air movement. Where air-conditioning is normally used, special attention must be paid to its effects. Double-door (airlock) entry/exit points must be provided.

8.8 **Seating.** A minimum of 5,000 seats is required. This number includes Paralympic Family requirements. At venues in parts of Asia and Europe a greater seating capacity than 5,000 will almost certainly be required.

8.9 **Warm-up area.** This must be close to the competition hall and accessible under cover. Space for minimum four courts is required – 2 for standing classes on court mats and two for wheelchair classes on wooden, sprung floor. An uninterrupted height above the courts of at least 10 metres must be provided. The requirements of 8.2, 8.3, 8.6 and 8.7 above will apply.

8.10 **Coach videoing.** Physical provision must be made for team coaches to video matches involving their players, as is generally allowed at all BWF events. These videos are for private use and analysis only, and users can, if desired, be required to sign appropriate commitments as to use of the tapes.

9. **TELEVISION and INTERNET COVERAGE**

9.1 Television coverage must be provided for at least one of the central courts throughout all sessions of the competition.

9.2 “Real-time” scores must be provided to the internet, i.e. the score point by point in all matches as the points are scored.

10. **PRACTICE HALL**

A hall (or halls) with eight or more courts is required for training before and during the period of competition. Distance from the Athletes’ Village is more important than that from the Competition Hall. Although it may not be possible to replicate the exact conditions of the Competition Hall, the uninterrupted height above the courts must be at least 9 metres. The requirements of 8.2, 8.3, 8.6 and 8.7 above will apply.
