These Classification Regulations are part of the Para Badminton Competition Regulations. The Classification Regulations apply to all international Para Badminton Tournaments sanctioned by BWF.

These Classification Regulations refer to a number of Appendices. These Appendices form an integral part of the Classification Regulations

The Classification Regulations are supplemented by a number of Classification forms that have been prepared to assist Player Evaluation. These forms are available from the BWF website, and can be amended by BWF from time to time

It is intended to provide a framework for fair competition and to ensure that the strategies, skills and talent of Players determine competitive success.

1.2. Application

These Classification Regulations apply to all Players and Player Support Personnel who participate in any Para Badminton tournaments sanctioned by BWF.

These Classification Regulations must be read and applied in conjunction with all other applicable regulations of BWF, including but not limited to the sport technical regulations of BWF. In the event these Classification Regulations and any other rules, the Classification Regulations shall take precedence.

1.3. Classification

Classification is undertaken to:

- 1.3.1. define who is eligible to compete in Para sport and consequently who has the opportunity to reach the goal of becoming a Paralympian.
- 1.3.2. groups Players into Sport Classes together in tournaments and aims to ensure that the impact of Impairment is minimised and sporting excellence determines which Player or team is ultimately victorious.
- 1.3.3. allocate a Sport Class Status (which indicates when Players should be evaluated and how their Sport Class may be challenged).

(badminton specific tasks and activities) and observation in training and/or a Tournament, as detailed in these Classification Regulations.

1.4.3. Classification is undertaken to both ensure that a relevant level of impairment based on the list of eligible impairment under BWF for Para Badminton is present in a Player, and that that impairment has a demonstrable impact upon Player performance in competition.

1.5. Sport Profile

- 1.5.1. A Sport Profile explains how a Player may be considered eligible to compete within a particular Sport Class. A Sport Class will be allocated to a Player based on the degree to which a Player satisfies the requirements of the Sport Profile for that Sport Class.
- 1.5.2. The Sport Profiles, including the Minimal Impairment Criteria for the Sport Classes that comprise Para Badminton are set out in Appendix 1 of these Classification Regulations.
- 1.5.3. The Sport Profiles explain how a Player may be eligible to compete in Para Badminton Events.

1.6. International Paralympic Committee (IPC) Classification Code

- 1.6.1. BWF has implemented these Classification Regulations in compliance with the IPC Classification Code (IPC Code) and the relevant International Standards. In the event that there is any inconsistency between any provisions of these Classification Regulations and the IPC Code, the provisions appearing in the IPC Code shall prevail. The IPC Classification Code shall also apply to matters not addressed in these Classification Regulations.
- 1.6.2. BWF is committed to developing an "evidenced-based" classification system through initiating and coordinating multi-disciplinary research in areas such as biomechanics, kinesiology and physiology.

- 5.2. Eligible Impairment
 - 5.2.1. Any Player wishing to compete in a Para Badminton governed by BWF must have an Eligible Impairment and that Eligible Impairment must be Permanent.
 - 5.2.2. Appendix 1 of these Classification regulations specify the Eligible Impairment(s) a player must have in order to compete in a tournament sanctioned by BWF.
 - 5.2.3. Any Impairment that is not listed as an Eligible Impairment in Appendix 1 is referred to as a Non-Eligible Impairment.
- 5.3. Assessment of Eligible Impairment
 - 5.3.1. In order to be satisfied that a player has an Eligible Impairment, BWF may require any Player to demonstrate that he or she has an Underlying Health Condition. Appendix 1 lists examples of Health Conditions that are not Underlying Health Conditions.
 - 5.3.2. The means by which BWF determines that an individual Player has an Eligible Impairment is at the sole discretion of BWF. BWF may consider that a player's Eligible Impairment is sufficiently obvious and therefore not require additional evidence that demonstrates the Player's Eligible Impairment.
 - 5.3.3. If in the course of determining if a player has an Eligible Impairment BWF becomes aware that the Player has a Health Condition, and believes that the impact of that Health Condition may be that it is unsafe

for that Player to compete or there is a risk to the health of the Player (or other Players) if that Player competes, it may designate the Player as Classification Not Completed (CNC) in accordance with 6.1.3.4 of these Classification Regulations. In such instances BWF will explain the basis of its designation to the relevant Member Association/BWF recognized organisations and/or National Paralympic Committee.

- 5.3.4. A player with Sport Class Status N, R, FRD and CNC must send the completed forms below (in English) to be reviewed by a Medical Diagnostic Information Reviewer (Chief Classifier) assigned by the Head of Classification four (4) weeks before the tournament begins to classification@bwf.sport.

 - 5.3.5.4. If the Head of Classification believes that he or she does not hold the necessary competencies to assess the

Diagnostic Information, he or she will not participate in the review of the Diagnostic Information, but will assist the Eligibility Assessment Committee.

- 5.3.5.5. Wherever possible all references to the individual Player and the source(s) of the Diagnostic Information should be withheld from the Eligibility Assessment Committee. Each member of the Eligibility Assessment Committee will review the Diagnostic Information and decide whether such information establishes the existence of an Eligible Impairment.
- 5.3.5.6. If the Eligibility Assessment Committee concludes that the Player has an Eligible Impairment the Player will be permitted to complete Player Evaluation with a Classification Panel.
- 5.3.5.7. If the Eligibility Assessment Committee is not satisfied that the Player has an Eligible Impairment the Head of Classification will provide a decision to this effect in writing to the relevant Member Association or National Paralympic Committee. In the case of a negative outcome, the Head of Classification will designate the Player with Sport Class Not Eligible (NE).
- 5.3.5.8. The Member Association or National Paralympic Committee will be given an opportunity to comment on the decision and may provide further Diagnostic Information to the Eligibility Assessment Committee for review. If the decision is subsequently revised, the Head of Classification will inform the Member Association or National Paralympic Committee
- 5.3.5.9. If the decision is not changed, the Head of Classification will issue a final decision letter to the Member Association or National Paralympic Committee.
- 5.3.5.10. The Eligibility Assessment Committee may make its decisions by a majority. If the Head of Classification is part of the Eligibility Assessment Committee, he or she may veto any decision if he or she does not agree that the Diagnostic Information supports the conclusion that the Player has an Eligible Impairment.
- 5.3.5.11. BWF may delegate one or more of the functions described above to a Classification Panel

5.4. Minimum Impairment Criteria

- 5.4.1. A player who wishes to compete in a sport must have an Eligible Impairment that complies with the relevant Minimum Impairment Criteria for that sport.

The Classification Panel may, in its sole discretion, agree to Player Evaluation taking place at a later time and date in such circumstances.
- 5.5.14. The Player must disclose details of any medication routinely used by the Player prior in the Player Evaluation and other medications currently being taken. The Classification Panel may in its sole discretion decline to proceed with Player Evaluation if it considers that the use of such medication will affect its ability to conduct Physical and Medical Assessment.

The Classification Panel may agree to Player Evaluation taking place at a later time and date in such circumstances.

- 5.5.15. If a Player fails to disclose the use of medications as required by 5.5.7 the Chief Classifier may set aside the Player's Sport Class and/or Sport Class Status, and require that the Player repeat Player Evaluation. If this results in a change in Sport Class the consequences set out in 6.5 shall apply.

 - 6.1.1.2. A Sport Class will be allocated to a Player following completion of Player Evaluation.
 - 6.1.1.3. A player who does not have an Eligible Impairment or does not comply with the Minimum Impairment Criteria for a sport must be allocated Sport Class Not Eligible (NE) for that sport in accordance with the provisions of Regulation 6.2 of these Classification Regulations.
 - 6.1.1.4. A Player that does not have a Sport Class prior to international or major Tournament must be allocated an "Entry Sport Class" prior to Player Evaluation. If at any stage of Player Evaluation, a Classification Panel is unable to allocate a Sport Class to a player, the Head of Classification or the relevant Chief Classifier may designate that Player as Classification Not Completed (CNC). This could be in situations where a Player needs to provide more information about his or her impairment, or where it is not possible for a classification panel to complete an evaluation session.

The designation Classification Not Completed (CNC) is not a Sport Class and is not subject to the provisions in these Classification Regulations concerning Protests. The designation Classification Not Completed (CNC) will however be recorded for the purpose of the BWF Classification Master List.

A player who is designated as Classification Not Completed (CNC) may not compete in the sport of Para Badminton.

BWF Para Badminton Sport Profiles – Players with a Physical Impairment

Appendix 1 details the Sport Profiles for the Sport Classes that are to be allocated to Players with Physical Impairments who wish to compete in BWF Para Badminton Tournaments.

All Players are advised that braces, strapping and supports if needed must be worn in accordance with the BWF Para Badminton Regulations.

Players must meet BWF Para Badminton standards of eligibility and minimal impairment to be assigned a classification for competition. Those who do not meet these criteria are declared ineligible for BWF Para Badminton competitions. Some Players are eligible for other sports, but may not meet eligibility for Para Badminton.

Examples of health conditions and eligible impairments that do not meet the minimum impairment eligibility for BWF Para Badminton are:

- pain
- fatigue
- hearing impairment
- low muscle tone
- hypermobility of joints
- joint instability, such as unstable shoulder joint, recurrent dislocation of a joint
- osteochondritis
- arthritis
- joint replacement
- Impaired muscle endurance (fatigue as in fibromyalgia and myalgic encephalitis)
- Impaired motor reflex functions
- Impaired cardiovascular functions
- Impaired respiratory functions
- Impaired metabolic functions
- Tics and mannerisms, stereotypes and motor perseveration
- generalised debilitating disease
- obesity
- psychiatric conditions
- skin diseases
- haemophilia
- epilepsy
- vertigo or dizziness
- internal organ dysfunction, absence or transplant

Player profiles and minimum impairment criteria are clearly set out in these Classification Regulations.

The eight impairment types eligible in BWF Para Badminton are:

1. Hypertonia

Players with hypertonia have an increase in muscle tension and a reduced ability of a muscle to stretch caused by damage to the central nervous system. Examples of Underlying Health Conditions that may lead to Hypertonia include cerebral palsy, traumatic brain injury and stroke

2. Ataxia

Players with Ataxia have uncoordinated movements caused by damage to the central nervous system. Examples of an Underlying Health Condition that may lead to Ataxia include: cerebral palsy, traumatic brain injury, stroke and multiple sclerosis.

3. Athetosis

Players with Athetosis have continual slow involuntary movements. Examples of an Underlying Health Condition that may lead to Athetosis include cerebral palsy, traumatic brain injury and stroke.

4. Loss of limb or limb deficiency

Players with Limb Deficiency have total or partial absence of bones or joints as a consequence of trauma (i.e. traumatic amputation), illness (i.e. amputation due to bone cancer) or congenital limb deficiency (i.e. dysmelia).

5. Impaired passive range of movement:

Players with Limb Deficiency have total or partial absence of bones or joints as a consequence of trauma (i.e. traumatic amputation), illness (i.e. amputation due to bone cancer) or congenital limb deficiency (i.e. dysmelia or arthrogryposis).

6. Impaired muscle power

Players with Impaired Muscle Power have a health condition that either reduces or eliminates their ability to voluntarily contract their muscles in order to move or to generate force. Examples of Underlying Health Conditions that may lead to Impaired Muscle Power include spinal cord injury (complete or incomplete, tetra-or paraplegia or paraparesis), muscular dystrophy, post-polio syndrome and spina bifida.

7. Leg-length difference

Players with Leg Length Difference have a difference in the length of their legs as a result of a disturbance of limb growth (i.e. congenital dysgenesis) or trauma.

8. Short stature

Players with Short Stature have a reduced length in the bones of the upper limbs, lower limbs and/or trunk. Examples of an Underlying Health Condition that may lead to Short Stature include achondroplasia, growth hormone dysfunction, and osteogenesis imperfecta.

Minimal Impairment Criteria (MIC)

To be eligible for events recognized by the BWF, Players with physical impairments identified above must at least exhibit the minimal impairment criteria defined for each physical impairment type in that Sport Class.

Appendix 2, 3, 4 and 5 below show the minimal impairment criteria of each Sport Class.

BWF Para Badminton Player Evaluation Process – Processes and Techniques

This section details the processes and techniques developed by BWF that form part of the Player Evaluation process. Classifiers use these processes and techniques in order to determine Sport Class.

Classification is typically held one or two days prior to the start of competition.

Players are required to complete a Para Badminton Player Evaluation Consent Form and attend Classification at the appointed time, accompanied by a Player representative (coach or delegate member) if they wish and if necessary by an interpreter who speaks English.

1. General

The BWF Para badminton Classification Regulations require that a Player undertakes physical and technical evaluation in order to be allocated a Sport Class. This is required in order to establish that the Player:

- exhibits an impairment that qualifies the Player for competition;
- exhibits Activity Limitations resulting from that impairment that affect the Player's ability to compete.

Both of these components are part of the overall eligibility assessment process that is an integral feature of Player Evaluation.

Para badminton classification is based upon:

- review of medical documentation of the impairment of the Player;
- review of medical history;
- physical evaluation conducted with functional testing;
- observation during training and/or competition.

2. Classification Procedures

A Classification Panel should ensure that the following assessment procedures are undertaken as part of physical and technical evaluation:

- a) Presenting or completion of the BWF Para badminton Consent Form.
- b) Completion of the personal data on the Classification Card.
- c) Presenting or completion of the medical history and diagnosis (medical information) by the Player and confirmation by the classifiers.
- d) Physical examination conducted by the classifiers using a manual muscle test (Clarkson 2000) and/or joint mobility test (Clarkson 2000), and entering test results on the classification card. For the assessment of Players with spinal cord injury, the ASIA classification has to be used (Maynard 1997) and for the assessment of CP Players the Ashworth Scale (Ashworth 1964).
- e) Completion of a functional assessment with the appropriate tests which are dependent on the functional ability of the Player. Testing in wheelchair or on examination table as required.

- Players with neurological impairment may be re-evaluated on an annual basis until they show a stable profile.
- g) In order to further assess athletes' physical capabilities and their impairment, a technical assessment shall be conducted after the physical assessment should it be required by the classifier panel. This will be conducted on a court specified by the classifier panel.

Wheelchair Classes

Athletes who are being assessed for wheelchair classes will be asked to perform certain wheelchair badminton movements. This assessment will be conducted in a half court setting.

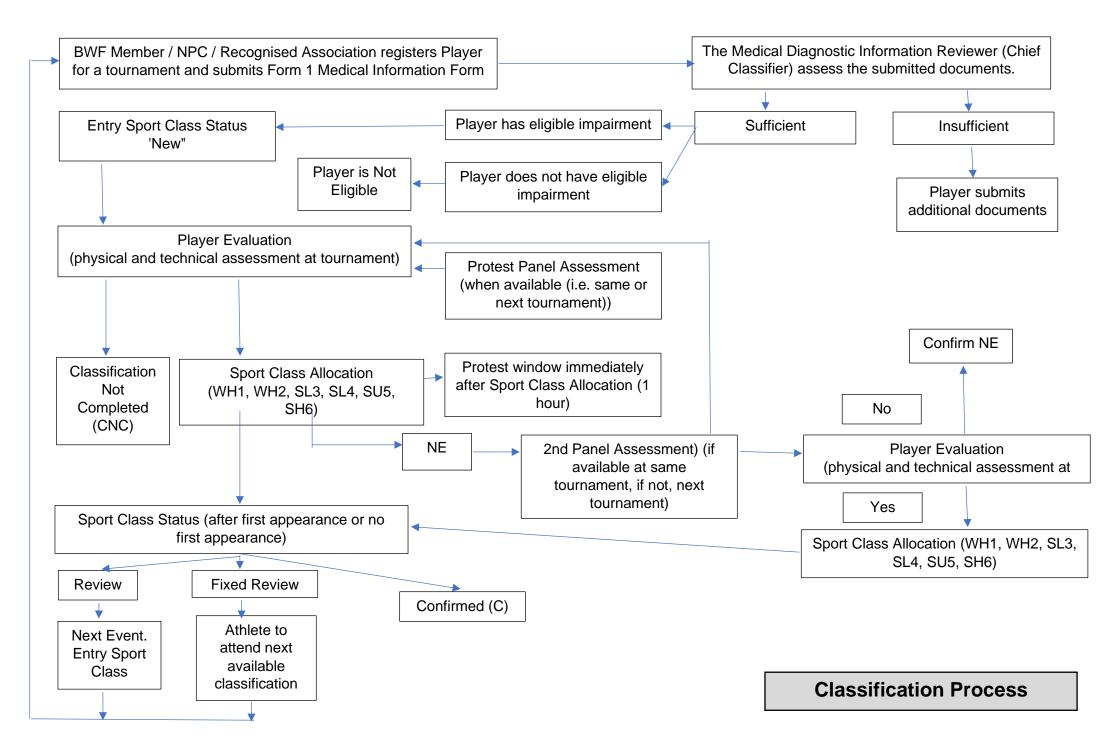

Standing Classes

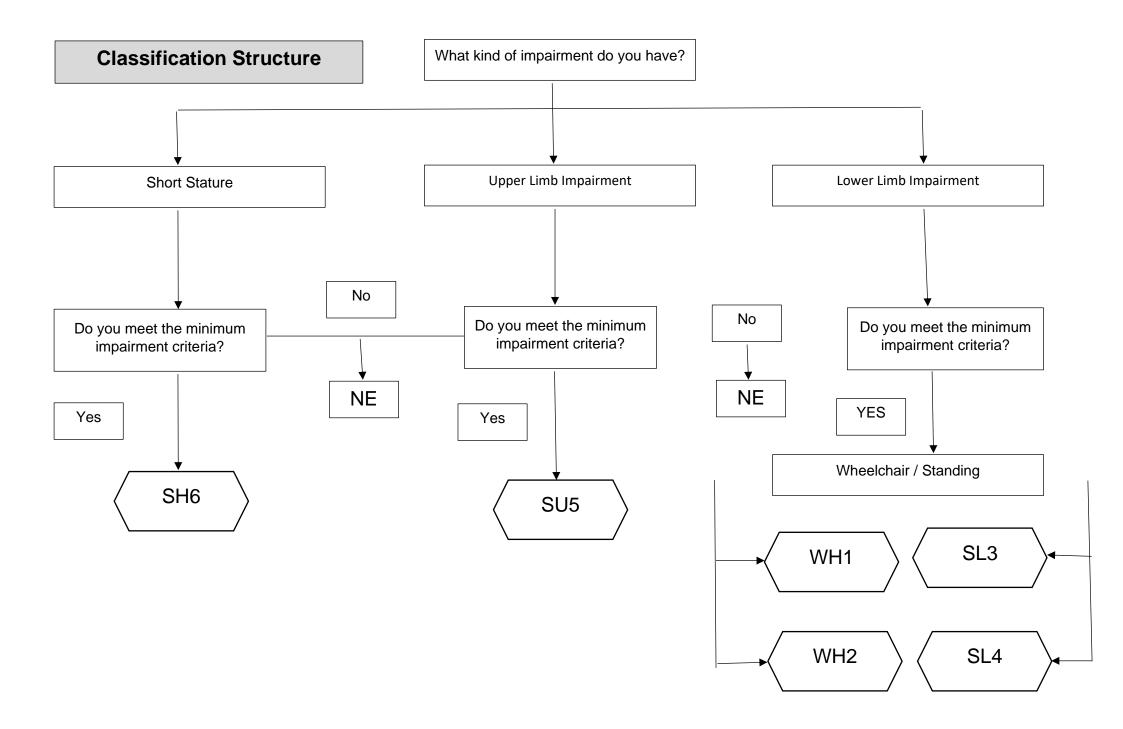

Athletes who are being assessed for Standing Lower 3 and/or 4 will be asked to play/simulate a badminton match and/or to practice hitting shuttles with a person specified by the classifier panel. Additionally, athletes are to perform badminton specific movements and shadow play as instructed by the classifier panel. These movements are assessed and scored from a scale of 1 - 5. This particular section of the technical assessment will be conducted in a full court setting.

- Sport Class noted on the Medical Classification Form and the Classification Card which both must be signed and dated by the Player and the involved International Classifiers. (Sport Class Status still missing on the provisional Classification card).
- i) Finish off the physical and technical evaluation documented with date on the provisional Classification card.
- j) The Sport Class for this tournament which is the result of the medical and technical assessment of the Players who have to pass the Classification Evaluation will be published on a Classification information board once or two times a day defined in advance by a timetable. The publishing time will be noted on the information list. The time for a protest starts with the publishing time.
- k) Observation of the Player in practice and/or in competition. Observation in competition completes physical and technical evaluation. Observation includes all Badminton movements in both standing and wheelchair. International Classifiers will observe all the movements and chart each movement scores in the classification form.
- I) By the end of the competition information of the Player about the final Competition Class and the Sport Class Status.
- m) Players names are entered on the Classification Master List.
- From time to time Players who present for Classification are found to be ineligible for BWF Para badminton. Their names may be recorded as NE (Not Eligible).

Players are required to attend Player evaluation with any prosthetics, braces, strapping, supports and modified shoes as well as with the wheelchair for the match.

Classification Panels are responsible for and to manage any video recording necessary for classification purposes associated with the competition.

Classifier Training and Certification

SECTION I – OVERVIEW

1. Introduction

- 1.1 The BWF International Classifier Education and Certification Programme provides the framework and requirements to train, develop and maintain International Para Badminton Classifiers. The programme defines the requirements needed for different levels of certification and the conditions to maintain certification and to advance to a higher level.
- 1.2 The BWF International Classifier Training and Certification Programme ensures there is a systematic and consistent approach to training of new para badminton classifiers and covers the on-going training and education requirements of existing classifiers in the system.
- 1.3 The BWF Guidelines for International Classifier Training and Certification provides guidance for BWF Classifier Course Facilitators and Trainers who are planning and implementing International Classifier training and development.

2. Purpose

2.1 The purpose of Appendix 6 is to describes the principles and processes for training and certification

SECTION II – PROCEDURES FOR CERTIFICATION OF INTERNATIONAL CLASSIFIERS

3. Classification Personnel

- 3.1 The BWF recognizes three (3) levels of International Classifiers. These are:
 - 3.1.1 Trainee Classifier
 - 3.1.2 International Classifier
 - 3.1.3 Senior International Classifier
- 3.2 International Classifiers must be trained and certified by the BWF. Classifiers shall be qualified as below:
 - a Medical professional a doctor or physiotherapist (or practitioner from a related discipline) who has knowledge and had experience in dealing with people with the impairments and the Activity Limitations described in the Competition Sport Profiles;

However, those who are not from the two fields mentioned above but can prove via educational certification that it has the necessary medical knowledge including biomechanics of sport/human movement, significant experience in the technical aspects of badminton as well as current working experience that is similar to a physiotherapist may be considered.

Selection towards attending further training to become an International Classifier is at the sole discretion of the BWF.
